Bhojpur, Nepal

## LANGUAGES

---

English

Nepali

## ABOUT ME

---

I come from a family that values education and hard work. My parents have always encouraged me to learn, grow, and make the most of every opportunity available to me. At school, I am particularly interested in English and business-related subjects. I enjoy learning new skills and exploring how education can create opportunities for the future.

## MY STORY

---

During my school years, I have balanced my studies with family responsibilities and community activities. These experiences have taught me discipline, independence, and the importance of perseverance. Growing up in a rural area has shown me that opportunities are not always equally available to everyone. This has motivated me to work hard and continue pursuing my educational goals.

## MY GOAL

---

I would like to earn a bachelor's degree and develop the knowledge and skills needed to build a successful professional career. In the future, I hope to contribute to the development of my community and help create new opportunities for young people through education and leadership.

## PERSONAL MESSAGE

---

Thank you for taking the time to learn about my story. I look forward to meeting people from different backgrounds, sharing experiences, and learning from one another. I believe education creates opportunities not only for personal growth, but also for building meaningful connections across cultures.
